

# Early Chatham County Deed Abstracts

Local historian, Mark Chilton, has created a searchable resource of abstracts of early Chatham County Deed Books. Unlike the Register of Deeds system, the abstracts include geographic information, allowing users to search for named roads, ferries, bridges, creeks, and other landmarks. We thank Mark for allowing us to share this very useful resource. The document is a work in progress. We'll share updates as Mark provides them.

Use your browser's search feature to search on names, creek names, road names, etc.
