# Rednap Howell ~ Poet of the Regulation

CCHA Program

Sunday, May 23, 2021 ~ 2:00pm

in the Historic Chatham County Courthouse, Pittsboro

**Rednap Howell** was one of the key leaders of the War of Regulation in North Carolina from 1765 to 1771. A school master from New Jersey he settled in Southern Orange County (now Chatham County) and served as an itinerate teacher throughout the region. Being a musician as well as school master, Howell earned the title Poet of the War of Regulation by writing songs which spread the news of the corruption of the local officials and kept the flames of the Regulation Movement growing. For his role in this movement, he was declared an outlaw by Governor William Tryon and was one of only two Regulators that were never pardoned for their involvement in this movement.

Hear Rednap's first-hand recount of the War of Regulation in North Carolina in this video of a presentation delivered at CCHA's annual meeting on May 23, 2021.

[Watch the video of Rednap's presentation](#)

In this video, Rednap Howell is portrayed by Dr. Ted Scott Henson of Burlington, a descendant of three Regulators. He is a veteran of 40 years in education in North Carolina, having taught at every level from elementary school to college. He is a native of Franklinville in Randolph County.

Thanks to Dr. Henson for his entertaining and educational portrayal of Rednap Howell, and to Gary Simpson for recording the event.

### CCHA Program The Changing Language of Chatham County

Sunday, February 23, 2020, 2:00 pm  
Historic Courthouse, Pittsboro  
*Free and open to the public.*

Come find out what the team from the Language and Life Project at NC State has learned so far from their interviews with your Chatham County friends and neighbors!

In the summer of 2019, the Language and Life Project (LLP), in cooperation with the Chatham County Historical Association (CCHA), started conducting interviews to study and archive changing language and life in Chatham County. The team has now completed more than 40 interviews with speakers ranging from 16 to 100 years of age, and plan to complete more than 100 interviews over the next year.

While the main goal of the NC State team is to study the changing language of life-long county residents, the project will also save the stories of those residents about life in Chatham County—providing a rich historical resource for the future.

At the February 23<sup>rd</sup> program, the LLP team, under the direction of Walt Wolfram, will discuss the progress of the Chatham project so far, offer some samples, and discuss possible ways that the oral histories and other products in this cooperative effort might be shared.

We are fortunate that the Language and Life Project chose Chatham for this intensive study. The 100+ interviews of Chatham residents of all ages and backgrounds will not only preserve Chatham's unique language traditions but also will provide a window into the lives of long-time residents.

The CCHA invites everyone to the program on Sunday, February 23 at 2:00pm in the Historic Chatham County Courthouse. We think you'll be interested in this sneak-peek at the project's progress. You might even decide to sign up to take part!

## The Spirit of Harriet Tubman Sunday September 29, 2:30pm – 4:00pm

The Chatham County Historical Association (CCHA) hosted of *The Spirit of Harriet Tubman*, a one-person play performed by Diane Faison, Sunday, September 29<sup>th</sup> at the Historic Courthouse in Pittsboro. Ms. Faison's performance was characterized as 'wonderful,' 'exceeding high expectations,' and 'full of information' by members of the audience, which included more than 130 adults and children.

Ms. Faison was introduced by Grimsley Hobbs, Vice-President of CCHA, and immediately captured the attention of her audience with her emotional performance. Over the next hour, listeners learned the facts of Harriet Tubman's life, but more importantly they could feel the emotional impact of being an enslaved person from Ms. Faison's dramatic portrayal. She earned the standing ovation she received at the conclusion.

CCHA strives to present history via programs like this and the Chatham Historic Museum.

## Chatham County Oral History and Language Study

to be Conducted in Chatham by NCSU's Language and Life Program

This summer, Chatham County natives will be the focus of a new study by the Language and Life Program at NCSU. The research team is looking for Chatham County natives (born and raised in Chatham) who have lived in Chatham for most of their lives to interview. The interviews will be recorded and the team will conduct analyses to look at the question of how language is changing in Chatham as it becomes less rural and more urban. The project will also record and preserve the interviews as oral histories that will be shared with the Chatham County Historical Association—saving a valuable part of Chatham's local history. If you are a native of Chatham who has spent most of your life in the county and might be willing to participate in this project, please get in touch! You'll be helping preserve Chatham's history and language.

For more information, or to sign up, contact Walt Wolfram at [wolfram@ncsu.edu](mailto:wolfram@ncsu.edu) or call 919/218-5374.

The Chatham County Historical Association is pleased that the Language and Life Project chose Chatham for this study!

## Voices of North Carolina

### The Legacy of Tar Heel Talk

Sunday, October 7, 2018, 2:00 pm  
Historic Courthouse, Pittsboro  
*Free and open to the public.*

One of the under-recognized traditions of the Tar Heel State is its linguistic heritage, from the historically isolated Outer Banks dialects of Ocracoke and Harkers Islands to the mountain dialects and Cherokee language of the Smoky Mountains. On Sunday, October 7 at 2:00pm, in the Historic Chatham County Courthouse in Pittsboro, Dr. Walt Wolfram will profile the regional and ethnic traditions of language and dialects through a series of video and audio vignettes that have come from more than two decades of extensive research, documentary production, and preservation activities. No state has a richer tradition of language variation than North Cackalacky. Join us to celebrate the voices of North Carolina as an integral part of North Carolina's historical and cultural legacy.

Walt Wolfram is William C. Friday Distinguished University Professor at North Carolina State University, where he also directs the Language and Life Project. He has pioneered research on social and ethnic dialects since the 1960s and published more than 20 books and over 300 articles. Over the last two decades, he and his students have conducted more than 3,500 sociolinguistic interviews with residents of North Carolina extending from Murphy to Manteo. He has received numerous awards, including the North Carolina Award--the highest award given to a citizen of North Carolina.

The Chatham County Historical Association program is free and the public is welcome! Join us to learn more about another aspect of North Carolina's rich and varied history.
